## PRODUCT STORIES

### Weidmüller Screwdrivers

#### Work better with our highest quality tools

At Weidmüller, we have been developing and manufacturing quality tools, to meet the most stringent requirements, for over 40 years. When we develop new solutions, we always have a goal in mind: to make your job easier, optimise processes, and help protect the long-term productivity of your business.

#### Quality and precision with a perfect balance

Our screwdrivers are the result of a consistent development concept that takes all ergonomic aspects and types of screwdriver work into account. They guarantee perfect handling and optimum transmission of axial force. For precise work, e.g. with sensitive components, our torque screwdrivers with their unique alternating bit system are the first choice.

#### Ergonomic, safe, powerful

If you want to work quickly, safely, with minimal strain, and without tiring, you need high-quality tools. Weidmüller screwdrivers are the right choice for all types of manual screw connections. They offer optimum handle ergonomics to ensure that work is as hand-friendly as possible.

#### Highest quality made in Germany

In the Weidmüller range, you will find the right screwdriver for every application. Choose from all common blade shapes such as slotted, cross-recess, Pozidriv, Phillips, PlusMinus, or Torx. The range extends from uninsulated standard screwdrivers to insulated versions with approvals up to 1,000 V – also as slim versions with flush insulation. Our screwdrivers are VDE-tested and offer the highest electrical safety, even in critical applications.

*Unsurpassed in quality and functionality*

#### Your benefits

- Highest quality – made in Germany
- Large assortment for every field of application in electrical engineering
- Available from your Weidmüller stockist

FEATURED PRODUCTS

**WEIDMÜLLER REDLINE CABLE PREPARATION KIT**

- Weidmuller Redline Tool Bag
- Cutter 8
- Cutty
- Stripper 6
- Crimper 6Z
- SDIL Slot Head Driver 3.5
- H-Box 0,5-2,50mm

**Order number: 7940124883**

**WEIDMÜLLER REDLINE TRADESMAN TOOL KIT**

- Weidmuller Redline Tool Bag
- Cutter 8
- Cutty
- Scissor 2K
- Stripper 6
- Crimper 6Z
- SDI 3 - 6.5/PH1/2 Driver Set
- SKL WSD-S KK Allen Key Set
- Cross Key Universal S
- Pack Hexa 8-18 Ratchet Spanner Set
- KBZ 200 Combination Pliers
- SE HD 180 Side Cutters
- FRZ S 200 Long Nose Pliers
- VT CL Red-L Non Contact Voltage Tester
- H-Box 0,5-2,50mm

**Order number: 7940124882**

**PRO-TOOL BAG**

**Premium electricians tool bag**

- stripax®
- PZ 6 Roto
- CTI 6
- Insulated Combination Pliers (200mm length)
- Insulated Diagonal Cutters (180mm length)
- Insulated Telephone Pliers (200mm length)
- Insulated 6 Piece Screwdriver Set
- 2K Scissors
- KT 8
- Voltage Tester
- Cross-Key-Duo
- Allen Keys

**Order number: 7940103541**

TECH TIP

**The correctly engineered tool is your passport to success!**

You wouldn't use a hammer to crack an egg, so why do we often see the wrong tools used for everyday electrical requirements. Pliers do not make good crimpers, and your teeth do not make good wire strippers. We sometimes try to make do when we just don't have the correct tool, but in reality, we are setting ourselves up for failure. Weidmüller has been designing and manufacturing the highest quality cable preparation tools for over 40 years. Our wire strippers have been engineered to prevent wire conductor damage and our crimpers to crimp ferrules to just the right pull out force but not so much that the ferrule is fractured. Many areas we take for granted have been thought out, tested, retested and finally implemented in our tools. When you pick up a Weidmüller tool, rest assured that it was designed to perform to the absolute highest of standards. Let's connect.
